

Exporting to Yahoo Calendar

You can easily merge the public view of any localendar calendar to a Google Calendar by following these steps:

Step 1: Know Your iCalendar URL

You'll need the URL to your localendar iCalendar feed. The format is:

```
https://localendar.com/public/<member name>?style=X2
```

where *<member name>* is your localendar login, or the name of the calendar you wish to merge

Tip

Most public localendar pages have a small "iCal" icon at the bottom of the page that points to this url. You can use this as a shortcut for getting this link.

Step 2: Add to your Yahoo Calendar

For the most up-to-date directions, please refer to [Yahoo's own documentation](#) for this step
