Day List View
This view shows the title and description for each of the Day's events

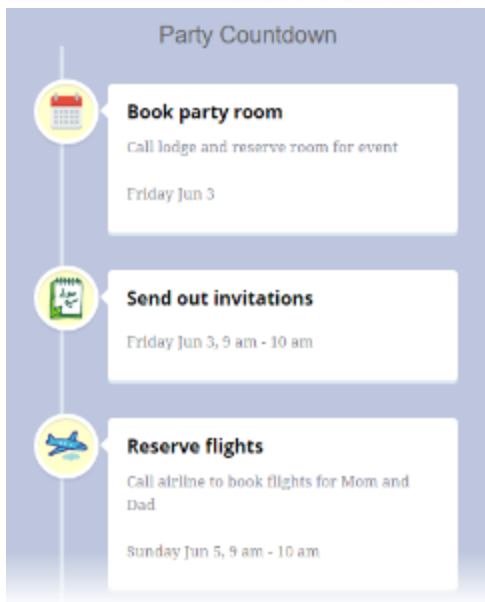

Today + Happening Soon
This view shows any events happening Today, and separately any events happening over the next 10 days (you can learn more about changing the date range and other settings for this view on our Additional General Options page:

Click here to learn about positioning the Date labels on this view

Timeline View
This view uses the same "look-ahead" settings as the Today+Happening Soon view to show you upcoming events. By default, it displays events happening over the next 10 days (you can learn more about changing the date range and other settings for this view on our Additional General Options page. It's also responsive and will dynamically adjust to smaller screen sizes:
